

Design fonts on your iPad

Create fonts using your EXACT procreate lettering!

Thank you for purchasing my guide on
how to turn your lettering into a font

Please find the link below to download the zip file containing the iPad Font Designer Kit and Font Making brushset for Procreate. Once you have downloaded the brushes, you tap them to open in Procreate which will automatically import the brushset to the top of your brush catalog, and the guides and templates will import if you tap them too.
